Serene™
COMFORT FOAM

*Displayed Fabric May Vary

Designed and built in the USA.

Proven materials made to last.

Contouring designs for deeper sleep.

Cool gel foam for a cooler sleep.

Gel Infused Serene Foam features advanced supportive air technology, which includes billions of microscopic air capsules that promote airflow, enhance breathability, and increases support without compromising comfort.

2376 Nano Coils provide ultra-responsive comfort and support. These small but mighty coils conform to the individual contours of your body for a personalized feel and sleep up to 28% cooler than traditional comfort foam layers.

789 Quantum Edge Wrapped Coils provide increased edge support and increase the overall size of your sleeping surface. The individually wrapped coils contour to your body and reduce motion transfer disturbances.
